THE STANDARD RIVET CO.
ROOM 10, 105 SUMMER ST.,
BOSTON, MASS.

Boston Mar 11th 1892

Messrs Noble & Cooley
Granville Mass.

Gentlemen We have your esteemed favour of 10th. and in reply would say we do not find in our correspondence that we have stated the conditions on which our Foot and Power Machines are placed. probably having in our mind that you knew them from Mr Kirby. they are. to-day. that the Rivets must be ordered in lots of not less than a full box (50000) at a time. and guarantee to take at least 250000 per year. When Mr Kirby began using our Machine our minimum was 200000 per year and, under the circumstances we will put you on that basis. Mr Kirby uses Foot Power Machines. in ordering Power Machine we understand you wish it fitted for Steam or other similar power.

Yrs very truly

The Standard Rivet Co.
